Lesstax2pay Franchise

“Huge demand for our service means that we are now in a position to expand our services nationally through a franchise network. **Accountancy Experience** (although helpful) is not a pre-requisite as our systems allow you the freedom to have the work processed centrally.

Hello,

Thank you for requesting our franchise prospectus. My name is Ray Fagan and I am delighted that you have taken the time to investigate this unique Accountancy Franchise Opportunity which will suit both business and accountancy professionals.

I apologise for the photograph, but it states our Unique Selling Point perfectly – No Problem. That is the single most important thing we can convey to our clients – no problem. They have enough worries and stresses without us adding to them, so we use those words every single day and become their trusted problem solver.

Accountancy Experience (although helpful) is not a pre-requisite as we believe that anyone with general business acumen and experience would be ideal for this business franchise as all accounts can be processed centrally.

This means that you are free to focus on growing your practice and providing value added services and products to your clients.

We have put together an excellent Franchise Package which will enable you to build your own successful Accountancy business and earn a six figure salary at the same time.

We have divided the UK into approximately 100 areas. This means that this opportunity is limited to just 100 high performing individuals, who will have the drive and desire to build a substantial business, and subsequently our entrance requirements will be strict.

If you believe that you have the drive to build your own practice, and want to work “on” your business rather than “in it”, then you could be on your way to joining us, and looking forward to a bright new future.
